

PEDRO

SCURSEL

front-end developer

37 years old

Born and based in Santos, SP - Brazil

<https://pedroscursel.com.br>

pedroscursel@gmail.com

+55 (13) 996-532-025

I bring 15 years of web development experience, solid technical abilities, a collaborative approach, and a commitment to delivering efficient solutions.

Recent Work Experience

Zé Delivery

web development engineering - mobile and desktop websites

period

07/2023 | 07/2025

I collaborated with the acquisition team to develop features that grew the Ab-Inbev Zé Delivery app customer base, including:

- Campaign messaging via banners, popups, and deep-linked buttons, validated through A/B tests using services like SplitIO;
- Management of user journeys using data from Google Shopping integration;
- Implementation of Pix and NuPay payment methods (Brazilian payment methods);
- Development of a checkout with delivery scheduling.

At the same time, I supported maintenance, security, deployment environment improvements, code updates, and test coverage for the Zé Delivery website.

XP Inc.

web development engineering - mobile and desktop websites

period

09/2021 | 01/2023

I collaborated with the growth team at XP Inc., contributing to the architecture of the group's websites (XP Inc., Rico, and Clear Corretora). Key responsibilities included:

- Developing and improving an internal CMS with server-side rendering front-end architecture focused on performance, scalability, and SEO;
- Creating reusable interface components for each brand within the XP Inc. group;
- Producing technical documentation and RFCs to ensure clear understanding and standardization of solutions aligned with company policies;
- Contributing to the deployment pipeline, maintaining the codebase, enhancing security, and implementing automated tests to ensure application quality and stability.

Career Highlights

Getsource

period
07/2017 | 08/2018

I was the lead front-end developer. I gained extensive experience working with a highly capable team. I learned Git thoroughly and adopted style preprocessors and just-in-time compilation in my daily workflow.

PS Web Dev

período
09/2018 | 08/2021

Freelance front-end developer. I carried out various web programming projects, experimenting with different JavaScript frameworks and cloud environments.

Portal Terra

período
07/2011 | 11/2012

Junior Systems Analyst.

My Skills

TypeScript & JavaScript ES6

ReactJS & NextJS

HTML5/CSS3 | Tailwind

Cloud | AWS & Azure

Git | CI/CD

Tests | Jest & RTL

Develop and maintain front-end applications using React.js and related technologies;
Create reusable, high-performance components following UI best practices;
Ensure interfaces are responsive and accessible;
Collaborate with designers, back-end developers and other stakeholders to deliver efficient solutions;
Optimize applications for fast loading and smooth user experience;
Test and fix bugs to ensure code quality and stability;
Participate in code reviews and contribute improvements to the team;
Keep up with trends and technological innovations to keep the platform up to date.

Academic Studies

Bachelor's degree in computer engineering | **ESAMC** University - ongoing

- ReactJS & NextJS Fundamentals | Front-end Master Class (2025);
- ReactJS, VueJS, NextJS, Jest, RTL, Pipeline Deploy | Udemy (2018/2020/2021/2023);
- ES6, GraphQL, JS Fundamentals | Fun Fun Functions (2018);
- Flexbox, CSS Grid, Sass, HTML5, jQuery, JavaScript, Gulp, WebPack, Git, PHP e etc | Alura (2016/2017/2018);
- Advanced PHP | PHP Conf Brazil (2015);
- Complete Java Formation | Caelum (2014) ;
- Advanced JavaScript & Object Oriented PHP | DRC Treinamentos (2011);
